

Hollum

7334A2TV4

Hi-vis softshell with ARC protection (RWS)

This hi-vis softshell is truly a multi-norm garment. The Hollum protects you against the risks of an electric ARC, heat, flames, welding sparks, liquid chemicals etc. On top of that thanks to the amount of fluorescent material and the pattern of the reflective material the softshell not only complies to the international EN ISO 20471 standard but also to the Dutch RWS standard for high visibility clothing. To shield you from the cutting wind this 3-layer laminated softshell has a standing collar and a concealed zipper under a flap with touch and close fastening. The Hollum thus protects you against both industrial hazards as harsh weather.
