## Hi-vis jacket with ARC protection

Made from an inherently flame-retardant, breathable and supple fabric, harmless to the skin, this jacket offers excellent arc protection, and protection against heat and metal splashes. It is equipped with double-stitched reflective FR strips for increased visibility. The tailored jacket is anti-static and resistant to wear, shrink and pilling, even after frequent washing. Because the fabric is so light (260 g/m<sup>2</sup>), this jacket is very comfortable.
