CHEMflex

Coverall

The Zurich coverall with zipper and double flap and touch and close fastening offers excellent protection against chemicals, oil and grease. Moreover, the flame-retardant and anti-static fabric is remarkably flexible and supple. The coverall has a fixed hood and elastic wind cuffs in the sleeves and at the ankles. For your comfort, the waist is elastic and the sleeves and leg ends can be narrowed. For extra durability, the knees have been reinforced. In short: the ideal protection coverall.
