SIO-FLAME™
 MOLTEN METAL

Jacket with protection against molten metals

The Lonic is the perfect protective jacket when working with molten metals. Made from a light and supple but inherently flame-retardant fabric, this jacket offers excellent protection against molten aluminium (D3) and steel (E3). The jacket is lined with reinforced and sloped seams, which significantly increases durability and wear resistance and also reduces the risk of molten metal sticking to the seams. The standing collar and the sleeve narrowing provide extra protection.

Jacket with protection against molten metals

Lonic - 039VA2PIU

European Standards: (based upon size L)

- » EN ISO 11612 : 2015 / A1 A2 B1 C1 D3 E3 F1
- » EN ISO 11611 : 2015 / Class 2 - A1 A2
- » EN 1149-5 : 2008
