**SIO-SAFE™**  
AQUA

## Hi-vis bomber jacket with ARC protection (Cl 2)

The Kelford is a high-quality hi-vis rain jacket with arc protection. The laminated fabric protects you against the wind and the rain, and the knitted wind cuffs at the sleeve ends keep you warm. The jacket can be fitted with a hood that is tucked away in a pocket inside the jacket. This anti-static rain jacket not only protects you against flames and welding sparks, but also against splashes of chemical products. The inside of the jacket has a flame-retardant lining for your protection. With four pockets and two loops for gas detection meters, this is a very, very practical jacket. The extended back ensures that your back is always protected.
