Hi-vis rain jacket with ARC protection

The Torvik is a premium hi-vis rain jacket which protects you against foul weather and the risks of an electric flashover. This supple jacket meets the high standards we set to our products regarding design, innovation and protection. The segmented reflective stripes not only add a modern touch, but also add to the breathability and comfortability of the jacket. The elongated backtail, pre-shaped sleeve ends and the use of an improved YKK-zipper with handy grip for easily opening and closing the jacket are some features which make this jacket stand out. Although this is a light jacket (280 g/m²) it offers you a very high degree of protection complying to international standards.
