EXTRA LIGHT

# Hi-vis trousers with ARC protection

These hi-vis trousers stand out with their double-stitched reflective FR strips and fluorescent colour. Although we use a light fabric (260 g/m<sup>2</sup>) the degree of protection remains high. These trousers with arc protection are anti-static and offer excellent protection against heat and metal splashes. In addition, these comfortable and practical trousers with five pockets are made from a light, inherently flame-retardant, breathable and supple fabric with moisture-regulating properties, harmless to the skin.
