Sedna

607UA2PFC

Work jacket with ARC protection (APC1)

This WELDING CLASS 2 work jacket was specifically designed to protect against more hazardous welding techniques and situations, causing higher levels of splashes and radiant heat. The treated FR fabric of $\pm 450 \text{ g/m}^2$ also contains 1% AST which provides this vest with anti-static properties. Combine the Sedna work jacket with the Soyuz work trousers (107U) for a protective outfit that is suitable for welding and allied processes.
