VILOFT®

Hi-vis ECO polo shirt

For our sustainable polo shirt Broby we paid a lot of attention to the efficient use of resources. The Broby is made from 100% recycled polyester. In addition, the used fabric is light, so less raw materials are used for the production of this polo shirt. The Broby is not only good for planet earth, but it is also good for you as it complies to the international standard EN13758-2 and thus protecting the wearer against the sun's harmful UVA and UVB rays.
