Rain jacket with ARC protection (APC 2)

The Talsi rain jacket is a multifunctional jacket which offers you a high level of protection. The jacket is equipped with 2 loops for gas detectors, 4 pockets on the outside and 2 on the inside. For your convenience there is an ergonomic pull tab so you can easily open and close the YKK-zipper. The 3-layer fabric and the fixed flame retardant lining protect you against many hazards like heat and flames. If you would get cold, you can zip in different linings thanks to our Integrated Lining System (I.L.S.). In short, the Talsi is a practical and convenient jacket which complies to Arc Protection Class 2.
