Hi-vis and anti-static backpack for hazardous environments

The Kirton backpack is especially designed to be used in hazardous environments. It has flame retardant and anti-static properties. This backpack is not only very comfortable to wear, but has also an extremely functional design with 3 storage compartments, a tool holding panel and a pocket to store your laptop. The 2 outside pockets have a mesh on the inside, doubling the storage space! This backpack can take a hit: the bottom is reinforced and is equipped with non-slip feet, ideal for the working environment.

Hi-vis and anti-static backpack for hazardous environments
