SIO-COOL^{LIGHT}

Hi-vis T-shirt (RWS)

The Matane hi-vis t-shirt is a comfortable t-shirt made out of the very light and airy Sio-Cool[®] Light fabric. The polyester fibres assure a quick transport of the absorbed moisture so that perspiration does not accumulate but quickly reaches the surface. At the underarms a hi-vis mesh was added to add to this feeling of freshness and to optimise the ventilation. The abundant use of fluorescent orange and the specific pattern of the flexible segmented reflective tape make that this t-shirt also complies to the Dutch RWS-standard and the British UK railway standard.
