Shirt with ARC protection

The Kendal not only looks very nice, but is also comfortable and offers protection against the risks of electric arc flashover. The light, breathable fabric has excellent moisture-regulating properties so you can comfortably withstand the heat. This fashionable shirt is flame retardant and anti-static. The flaps of the two patched chest pockets are nicely finished with a piping in a contrasting colour. With a loop for a gas detector or other gear and sleeve narrowing this practical shirt is simply perfect.
