SIOPOR[®]
EXCELL

Flame retardant, anti-static hi-vis rain bomber jacket

Available until end of stock.

The Talbot is a flame retardant, anti-static hi-vis rain bomber jacket in SIOPOR[®] Excell fabric that not only provides excellent protection against heat and flames, but also against water and wind. This light rain jacket with reflective FR strips is extra comfortable thanks to the extended back and the elastic waist that can be narrowed. In cold weather, a fleece with long sleeves (Heflin) can be zipped in. The wind is kept out by the elastic wrist bands that can be narrowed and by the standing collar to which a hood can be attached. The separately available hood can be stored in the special purpose inside pocket.
