Trousers

With the Karby trousers you can be assured that your legs will stay dry. The Flexothane® Kleen fabric of which the trousers is made off, consists of a polyurethane coating on a stretchable knitted base. This not only makes these trousers wind- and waterproof, but also supple and very stretchable so you will not be hindered in your movements. These trousers not only protect you against the weather elements but also against liquid chemicals, bloodborne pathogens and infective agents.
