## Flame retardant, anti-static bodywarmer

The Burvik bodywarmer not only protects you against the cold but also against many hazardous environments. The 3-layered fabric offers an excellent protection against heat, flames and welding sparks. Hence, the bodywarmer complies with many international standards like EN ISO 11612, EN ISO 11611, EN 1149-5 and EN 13034. This practical bodywarmer has both pockets on the inside and on the outside and the design was finished with a narrow stripe of flame retardant reflective tape.
