SIOPOR[®]
EXCELL

Hi-vis rain bomber jacket with ARC Protection

The Frovik is a bomber jacket which you can wear in many situations. The fluorescent colour and segmented striping will keep you safe in any light conditions. The SIOPOR Excell fabric protects you against the rain and against many industrial hazards including the thermal risks of an electrical flashover. A surplus is the light weight of the fabric. The bomber jacket comes with a flame retardant fleece lining (index 3) which can also be removed. The wind is kept out by the elastic wrist bands that can be narrowed and by the standing collar to which a hood can be attached. The separately available hood can be stored in the special purpose inside pocket. Class 2 ARC protection can be obtained by combining the bomber jacket and the fleece lining.
