SIO-SAFE™
EXTRA LIGHT

Hi-vis trousers with ARC protection (RWS)

When working in dangerous and busy environments it is imperative you are very good visible. Thanks to the fluorescent colour and the reflective striping over the entire leg length you will definitely stand out with these trousers. Because of the inherent flame retardant properties of the fabric, the Empe trousers also protect against burns and splashes of molten metal. Besides safety comfort is also an important issue. These trousers are made of a supple, durable and light fabric. And don't forget to add knee protection to improve your comfort even further!
