RWS rain jacket with ARC protection

Safety is the key word for this product and its users. The Beltrum rain jacket ensures your visibility day and night with its fluorescent colour and many reflective stripes. The vertical striping goes over the shoulders and along the entire sleeve, making the jacket compliant to the Dutch RWS specifications for high visibility clothing for road and rail workers. The jacket protects you against the hazards of an electric arc and keeps you dry in the rain, complying to the latest EN 343 standard. For extra comfort the jacket has an elongated back and a YKK-zipper with an easy slide-in system.
