SIOPOR[®]
EXCELL

Hi-vis rain jacket with ARC protection (APC1)

For the Falcon we took a fit that customers like, but we upgraded the fabric and the comfort level. The breathability of the SIOPOR[®] fabric is even better now, so much so that it complies to the highest class of the new EN 343:2019 standard. Regarding to the design, we also took into account that no water can enter the pockets, hence the chest and the waist pockets all have flaps. For your comfort and ease of use, this jacket is equipped with a zipper grip so you can easily insert the YKK-zipper. The improved SIOPOR[®] fabric is not only lighter but also more supple. The reflective tape is also welded on the fabric instead of stitched and does not hinder you in your movements.
