

# Delano

9485N3EF5

**SICOSTART**

## Flame retardant, anti-static hi-vis rain bomber jacket

This rain jacket meets the strict requirements in terms of flame retardation and protection against static electricity. In addition, a high-breathing water-repellent outer fabric has been used so that the jacket is water and windproof and you don't get clammy. On the inside of the Delano you will find a pocket, a removable, sleeveless, flame-retardant fleece lining, also with inside pocket. The exterior has a fluorescent finishing with reflective FR strips, two patched pockets, one Napoleon pocket, sleeve narrowing and an elastic hem for extra comfort.
