## Flame retardant, anti-static hi-vis rain jacket

Flame retardant, anti-static and waterproof, are the main assets of the Hedland. This rain parka has been stylishly designed in a two colour pattern and is equipped with flame retardant reflective tape. It is a very functional parka with two pockets, one chest pocket, one Napoleon pocket, one inside pocket and two loops for gas detection meters. In addition, the separately available hood can be attached to the standing collar or stored in the special inner pocket. The Hedland has sleeves that can be narrowed, and a cord in the hem. Thanks to the I.L.S. system, various fleeces, liners and softshells can be zipped in.
