Cap with ARC protection

When it's cold it's best to keep your head warm as we lose a lot of our body heat through our head. But when working in dangerous environments it is furthermore important to keep in mind that we can also protect our head against these dangers, for example by wearing our Utby. The cap is available in navy blue or in hi-vis yellow and is finished with a reflective piping on the front and back to enhance visibility.

Cap with ARC protection

Utby - 1928A2TF5
