SIO-SAFE™
EXTRA LIGHT

Work trousers with ARC protection (APC1), hi-vis class 2

The Regor unicolour orange work trousers are made of a soft, breathable and light but very protective fabric that retains its strength and protection even after extensive washing. The fabric protects you against heat, flames and chemical liquids and can be worn in many industrial environments. These class 2 hi-vis knee pocket trousers also meet the requirements of the British RIS-3279-TOM standard for high visibility clothing worn by people in the rail industry. | The Regor work trousers are the UP-dated version of the Malton (078V).
