Flame retardant, anti-static hi-vis rain winter coverall

Protected from head to toe against flames, the build-up of static electricity, rain and wind and in difficult lighting conditions? The Carret hi-vis winter rain coverall does it all. This coverall with knitted wind cuffs in the sleeves and elastic wrist bands, which can be narrowed, is made of SIOPOR® FR AST fabric and has a flame-retardant inner lining. The separately available hood can be attached to the standing collar or stored in the special inner pocket. With two loops and seven pockets on the body, arm and thigh, this is a very functional coverall. The elastic narrowing in the back and the zipper at the bottom of the legs ensure that you can slip into the Carret in no time.
