SIO-SAFE™
AQUA

Hi-vis rain coverall with ARC protection (Cl 2)

High quality protection on many levels that is what the Bowes hi-vis rain coverall offers you. This ARC class 2 coverall complies to many standards protecting you, amongst other things, against heat, the spread of flames, welding sparks and splashes of chemical products. A hood can be attached to the coverall for further protection. The laminated fabric is perfectly water- and windproof and by narrowing the sleeves and ankles by means of the touch and close fastening you can be sure that the wind won't bother you.

For your comfort there is an elastic drawstring in the waist, reinforcement at the knees and a zip closure at the leg ends.
